Subject: HCC/2021/0787 Hamble Airfield

Application number: HCC/2021/0787

Hamble Airfield

Bursledon Parish Council considered this application at the meeting of Full Council on Wednesday 2nd March 2022.

Bursledon Parish Council **objects** to the application submitted by CEMEX.

Bursledon Parish Council supports the views and comments of the neighbouring parishes in Hamble and Hound and makes the following comments from our local knowledge and experience regarding the detrimental impact on the residents of Bursledon.

Council resolved to **OBJECT** to the application due to:

- The excessive additional vehicle movements on Hamble Lane over and above that anticipated in the M&WLP and other local routes and the displacement of traffic movements into other areas.
- The road infra-structure of Hamble Lane and Windhover Roundabout does not adequately cater for the excessive increase in vehicle movements, with no current implementation plans from the Highway Authority to address these.
- The adverse impact on the Air Quality Management Area, along Hamble Lane, Windhover Roundabout and the A27. Standing traffic as a result of the increase in traffic movements will result in slow moving vehicles and congestion and will have an adverse impact on this area.
- Since the original Mineral and Waste Strategy there has been an increase of over 25% in the number of homes in Bursledon and Old Netley - Alongside the AQMA there is now additional housing, fronting onto Hamble Lane and on the A27, with a further 92 homes anticipated all that will be directly and adversely affected
- The Lowford Surgery has closed with 4000 patients now having to travel along Hamble Lane from Bursledon to Satchell Lane to obtain services.

The Parish Council reserves the right to make further comments and observations at a later date as part of subsequent consultations or in response to emerging information on the application.

Yours sincerely

Roland Potter
